LIST OF CONTENTS FOR VOLUME 17, 1990

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1990 Volume 17, Number 1 January-February

Contents

D. Schroeder-Richter and G. Bartsch	1	A new model describing the superheated state of the wall layer during nucleate boiling
S. Mirza	9	The behaviour of boiling of liquid nitrogen from aluminium surfaces
E.L. Bibeau and M. Salcudean	19	The effect of flow direction on void growth at low velocities and low pressure
L.-J. Huang and P.S. Ayyaswamy	27	Evaporation of a moving liquid droplet: solutions for intermediate Reynolds numbers
I.W. Turner and M. Ilic	39	Convective drying of a consolidated slab of wet porous material including the sorption region
C.D. Ebinuma and A. Nakayama	49	Non-Darcy transient and steady film condensation in a porous medium
J.P. Hartnett and M. Kostic	59	Turbulent friction factor correlations for power law fluids in circular and non-circular channels
L. Tang and A.T. Johnson	67	Flow visualization of mixed convection about a sphere
A.J. Ghajar and K. Raza	79	Mass transfer analogy for heat transfer experiments in thermal storage
G.T. Martin and H.F. Bowman	93	The temperature distribution in a semi-infinite body due to surface absorption of laser radiation
C.D. Ebinuma and A. Nakayama	105	An exact solution for transient film condensation in a porous medium along a vertical surface with lateral mass flux
V.A. Barouh and M.D. Mikhailov	113	Homogeneous-heterogeneous reactions in a tubular reactor
R. Budwig	117	Comments on "Thermistor thermometry errors induced by forced convection" by K. Kroos, ICHMT, 14, 281, 1987
Announcement	121	Short Course on Turbulence and Turbulence Modeling
Announcement	122	International Symposium on Engineering Turbulence Modeling and Measurements
Announcement	123	Second World Conference on Experimental Heat Transfer, Fluid Mechanics and Thermodynamics

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1990 Volume 17, Number 2 March-April

Contents

O. Manca, S. Nardini and V. Naso 125 Surface Periodic on-off heat flux over a semi-infinite body

S.P. Mulay and W.M. Worek 135 Simultaneous transport of heat and moisture in a partially saturated porous media

C.-P. Fung, K.-P. Peng and J.-L. Doong 147 Study of surface temperature on laser cutting and welding power absorption

Y. Kawase 155 The energy dissipation rate concept for turbulent heat and mass transfer in drag-reducing fluids

P. Wangskarn and B. Ghorashi 167 Heat and momentum transfer analogies for the transitional and turbulent flow of a non-Newtonian power-law fluid in a heated pipe

L. Likhterov and T. Elperin 179 High frequency asymptotics of the acoustic noise spectrum in nucleate pool boiling

M.M. Sorour, M.M. Saleh and R.A. Mahmoud 189 Thermal conductivity and diffusivity of soil

V.D. Murty, M.P. Camden, C.L. Clay and D.B. Paul 201 The properties of the numerical solutions of isothermal q-f turbulence equations using finite elements

S.M. Zubair and P.V. Kadaba 215 Similarity transformations for boundary layer equations in unsteady mixed convection

J.A. Zarate and J.A. Manrique 227 Unsteady-state cooling of an induction furnace

Announcement 235 Modern Developments in Boiling Heat Transfer and Two-Phase Flow

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1990 Volume 17, Number 3 May-June

Contents

M.-H. Chun and B.-D. Chung 237 Countercurrent flow limitation experiments with vertical multi-tube bundle with and without spacer grids

S.C. Saxena, A.C. Saxena and N.S. Rao 247 Prediction of heat transfer coefficient from an immersed surface in a slurry bubble column

P.R. Chappidi, F.S. Gunnerson and K.O. Pasamehmetoglu 259 A simple forced convection film boiling model

N. Brauner 271 On the relations between two-phase flows under reduced gravity and earth experiment

G.S. Hanumanth 283 Solidification in the presence of natural convection

J.I. Frankel and S.R. Sonikar 293 Thermal analysis of a transparent, compressible gas flow through a heated channel

H.M. Soliman, G.E. Sims and D.W. Trim 305 On the one-dimensional approximation of heat conduction in composite walls

R.H. Yeh and S.P. Liaw 317 An exact solution for thermal characteristics of fins with power-law heat transfer coefficient

W.-S. Fu, J.-D. Lin, K.-C. Tu and C.-C. Tseng 331 A numerical study of a structure protected by water film from an incident heat flux

H. Campos, J.C. Morales, U. Lacoa and A. Campo 343 Thermal aspects of a vertical annular enclosure divided into a fluid region and a porous region

G.H. Sedahmed and I. Nirdosh 355 Free convection mass transfer at horizontal cylinders with active ends

V. T. Morgan 367 The forced convective heat transfer from an insulated circular cylindrical conductor in air

E. H. DeGroot and H. Sprengel 377 Approximating the movement of a free chemical reaction interface

Announcement 387 The Fourth International Symposium on Transport Phenomena

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1990 Volume 17, Number 4 July-August

Contents

W.J. Miller, B. Gebhart and N.T. Wright	389	Effects of boiling history on a microconfigured surface in a dielectric liquid
C.F. Ma and Y.Q. Tian	399	Experimental investigation on two-phase two-compartment jet impingement heat transfer from simulated microelectronic heat sources
C.F. Ma, Y. Chin, D.H. Lei, X.Q. Gu and Y. Xu	409	Mixed and forced convection from a small heater to liquid flows in a vertical regular channel
K.J. Choi and J.S. Hong	419	Heat transfer characteristics of water droplets interacting with a rotating hot surface
M.-H. Chun and K.-T. Kim	431	Assessment of the new and existing correlations for laminar and turbulent film condensations on a vertical surface
M.-H. Chun and S.-J. Cho	443	Analysis of melting at the wall in laminar flow in a cylindrical channel
B.R. Becker and C.S. Becker	455	The flow field and heat transfer near a turbulator
R.A. Gore, C.T. Crowe and A.Bejan	465	The geometric similarity of the laminar sections of boundary layer-type flows
N.E. Ramirez and A.E. Saez	477	The effect of vairable viscosity on boundary-layer heat transfer in a porous medium
F.C. Lai	489	Coupled heat and mass transfer by natural convection from a horizontal line source in saturated porous medium
W.-S. Fu and W.-J. Shieh	501	A transient natural convection in a uniformly heated enclosure under time-dependent gravitional acceleration field
R.O. Ayeni, C.J. Agorzie, S.S. Okoya, K. Ogunmoyela and I.O. Ayomidele	511	The effect of slip velocity on the temperature field of blood flowing in the microcirculation
A.A. Kolyshkin, E.G. Okoulich-Karazin and R. Vaillancourt	521	A combined unsteady method for the determination of thermal conductivity of gases and flluids
Announcement	527	Symposium on Computational Technology for Flight Vehicles

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1990 Volume 17, Number 5 September-October

Contents

R.L. Webb	529	Standard nomenclature for mass transfer processes
D. Pneuli	537	Transient cooling by a liquid spray of a surface heated above the boiling temperature
A. Clausse and R.T. Lahey, Jr.	545	The influence of flow development on subcooled boiling
T. Ohara, T. Yamamoto and H. Fujita	555	Heat Transfer and pressure drop of boiling flow in a cross-ribbed flat channel
P. Pierson L. Pincon and J. Padet	567	Definition d'une efficacite moyenne pour un echangeur fonctionnant en regime thermique variable
Q. Xiao and W.Q. Tao	577	Effect of fin spacing on heat transfer and pressure drop of two-row corrugated-fin and tube heat exchangers
K.D. Papadopoulos, A.G. Guzman-Garcia and R.V. Bailey	587	The response of straight and circular fins to fluid temperature changes
W.E. Stewart, Jr., M.E. Greer and L.A. Stickler	597	Heat transfer in a partially insulated rectangular enclosure of heat generating porous media
F.C. Lai, C.Y. Choi and F.A. Kulacki	609	Coupled heat and mass transfer by natural convection from slender bodies of revolution in porous media
M.A. Ebadian and H.Y. Zhang	621	Effects of heat generation and axial heat conduction in laminar flow inside a circular pipe with a step change in wall temperature
J.J. Maldonado, S. Sengupta and S.K. Roy	637	Gravity-assisted melting in a horizontal cylinder heated by external forced convection
K. Vafai	647	An investigation of a pulse heat rejection system with specific attention to the evaporator section
R.W. Ghrist and D.L.R. Oliver	653	Nusselt number of a spnere in creeping flow
J.A. Carvalho, Jr. and W.F.N. dos Santos	663	Radiation errors in temperature measurements with thermocouples in a cylindrical combustor
M.A. Ebadian and T.C. Yih	675	Analytical/numerical solution of heat conduction in a rectangular rod subjected to an n-cascade wall temperature

INTERNATIONAL COMMUNICATIONS IN HEAT AND MASS TRANSFER

1990 Volume 17, Number 6 November-December

Contents

P.S. Ayyaswamy, S.S. Sadhal and L.J. Huang	689	Effect of internal circulation on the transport to a moving drop
T.H. Hwang	703	Laminar droplet flow in combined hydrodynamically and thermally developing region of circular tubes
Y. M. Yang	711	Dynamic surface effect on boiling of aqueous surfactant solutions
Y.-J. Su, W.-J. Yang and J. Liu	729	Mechanics of transport phenomena in multi-component sessile drops with solidification
C. Schenone and G. Tanda	747	Forced convection heat transfer from shrouded staggered fin arrays
J.C. Elicer-Cortés, D.-K. Son and J. Coutances	759	Transfert de chaleur turbulent dans un diedre a geometrie variable
B. A. Rock and R. Anderson	771	Use of Laplace transforms and block diagrams for indoor air quality problems with perfectly mixed zones
K.D. Papadopoulos	781	Size, shape and diffusivity asymmetries in the transient mass and heat transfer of a mixture of bodies introduced in a well-stirred fluid
F.C. Lai	791	Natural convection from a concentrated heat source in a saturated porous medium
I. Pop and F.C. Lai	801	Natural convection in a truncated circular sector of porous medium
I. Pop and H. Herwig	813	Transient mass transfer from an isothermal vertical flat plate embedded in a porous medium
A.R. Mansour and A.M. Hussein	823	An approximate analytical solution for the nonlinear inverse axial dispersion model
M.T. Manzari	831	Evaluation of temperature jump due to thermal shocks
K. Mohseni	839	Determination of an unknown radiation term in an inverse problem of heat equation
R. Serfaty and R.M. Cotta	851	Integral transform solutions of diffusion problems with nonlinear equation coefficients
	865	LIST OF CONTENTS FOR VOLUME 17, 1990
	871	AUTHOR INDEX TO VOLUME 17, 1990
